# Ngô Thành Luân

BACKEND DEVELOPER

0362021007 · luanngo98@gmail.com · Hanoi, Vietnam

## OBJECTIVE

**Short-term:** Applying the knowledge and work experience learned in Java to become a strong programmer and contribute meaningfully to company growth.

**Long-term:** To become a professional AI-enhanced Full-stack Engineer, bridging robust Backend (Java) with dynamic Front-end technologies. Focused on achieving IELTS 7.0 to facilitate global expansion and onsite delivery, ensuring the company stays ahead in the evolving tech landscape.

## TECHNICAL SKILLS

Architecture & Design
Monolithic · Microservices · Event-driven · CQRS

Programming Languages
Java 8–21 · Go · TypeScript · JavaScript · Python

Frameworks
Spring Boot · Spring Cloud · Spring Security · Spring Data JPA · Hibernate · WebFlux

API & Integration
RESTful API · GraphQL · OpenAPI/Swagger · Webhook · API Gateway

Messaging & Streaming
Kafka · Azure Service Bus

Database & Caching
PostgreSQL · MySQL · MongoDB · Redis · Elasticsearch · DynamoDB · Oracle DB · HanaDB

DevOps & Cloud
Docker · Jenkins · Azure · CI/CD · Git

Testing
JUnit 5 · Mockito

Monitoring & Logging
ELK Stack · Prometheus · Grafana · Zipkin/Jaeger · Datadog

Security
Spring Security · JWT · OAuth2

Code Quality
SonarQube · Clean Code · Code Review · Refactoring

## SOFT SKILLS

- Strong communication with stakeholders (clients, PM, BA)
- Technical leadership & mentoring junior developers
- Problem-solving & critical thinking
- Agile / Scrum experience
- Ability to translate business requirements into technical solutions
- Proactive mindset & ownership

## CERTIFICATIONS

Hanyu Shuiping Kaoshi (HSK — Level 3)
12/2025

Oracle Certified Professional: Java SE 17
04/2025

Mendix Rapid Developer
2024

Certificate of completing the On Job Training program at FPT Software
2020

## Work Experience

**FPT Software** Software Engineer

**VMO Holdings** Software Engineer

## Professional Projects

### Health Counseling Application
Mar 2024 — Present

Customer: Thailand · Team: 30 · **Software Engineer — Team Leader**

All-in-one health counseling app for users and families. Users can track energy consumption during meals, monitor their own logs as well as their child's development, talk directly to doctors, claim vouchers, manage insurance, and more.

RESPONSIBILITIES
- Studied SRS and designed project structure.
- Created database solutions.
- Developed REST APIs and communication tools.
- Used Mockito with JUnit 5 to write white-box tests.
- Participated in Agile meetings.
- Integrated AI model as an assistant.

TECHNOLOGIES
Java 17 · Maven · Spring Boot · Spring Security · Azure · Jenkins · Microservices · Kafka · Redis · Mockito · JUnit 5 · PostgreSQL · DynamoDB · NextJS · TypeScript · Tailwind CSS

### Data Analytics
Jan 2023 — Feb 2024

Customer: Singapore · Team: 5 · **Full-stack Developer**

Web application for managing data uploaded from Excel files. Supports bulk Insert, Update, and Delete via templates, automatic file validation, and a data sync schedule reflected in the sales matrix page.

RESPONSIBILITIES
- Worked directly with Tech Lead and Customers to provide architecture direction.
- Enhanced and optimized existing features.
- Evaluated technical standards.
- Discussed technical debt, code coverage, and improvements to DB and application performance.

TECHNOLOGIES
Java 17 · Spring Boot · Spring Batch · Spring Data JPA · Spring Security · Apache POI · Hibernate · RESTful API · Redis · Kafka · Quartz Scheduler · Docker · Azure · Jenkins · HanaDB · PostgreSQL · Angular · TypeScript · Angular Material

### Nexcore Plugin — IntelliJ Template Plugin
Aug 2022 — Mar 2023

Customer: Korea · Team: 8 · **Java Developer**

Architected and deployed a custom IntelliJ IDE plugin to enable no-code development for non-technical stakeholders in Korea.

RESPONSIBILITIES
- Studied SRS and designed project structure.
- Collaborated with Customers and Tech Lead via a communication translator (comtor).
- Developed an IntelliJ-based plugin to empower non-technical users to build applications without manual coding.
- Discussed technical debt, code coverage, and application performance improvements.
- Acted as PMA (Project Manager Assistant) — managing team members, handling assets, and addressing security, participation, and project closure processes.

TECHNOLOGIES
Java 21 · IntelliJ · RESTful API · Spring Boot · Spring Security

### Life Insurance System
May 2022 — Jan 2023

Customer: Korea · Team: 10 · **Full-stack Developer**

End-to-end life insurance platform with data migration from Oracle to PostgreSQL and Eclipse plugin development for Korean developers.

RESPONSIBILITIES
- Studied SRS and designed project structure.
- Collaborated with Customers and Tech Lead via a comtor.
- Enhanced and optimized existing features.
- Developed a plugin for Eclipse Indigo SR2 to help Korean developers avoid code duplication.
- Migrated data from Oracle to PostgreSQL EDB.
- Discussed technical debt, code coverage, and performance improvements.
- Acted as PMA — managing team members, assets, and project-related processes.

TECHNOLOGIES
Java 11 · Spring Boot · Spring WebFlux · Spring Data JPA · Spring Security · Hibernate · RESTful API · Redis · Kafka · Docker · Oracle DB · PostgreSQL EDB

### API Hub Communication — Telecom Solutions
Mar 2021 — Apr 2022

Customer: Hong Kong · Team: 6 · **Java Developer**

Designed an API hub to communicate with legacy COBOL systems in a telecom environment.

RESPONSIBILITIES
- Studied SRS and the existing COBOL system.
- Developed REST APIs to communicate with the legacy system.
- Used Mockito with JUnit 5 to write white-box tests.
- Optimized SQL queries.

TECHNOLOGIES
Java 11 · Maven · Spring Boot · Spring Security · SOAP · Clever Cloud · Git · Oracle DB 11 · PostgreSQL

### VMS — Vaccination Management System
Dec 2020 — Feb 2021

Customer: FPT · Team: 5 · **Java Web Developer**

Web application managing vaccination for a preventive medicine center. Handles employees, vaccine types, vaccines, and news for a large user base.

RESPONSIBILITIES
- Studied SRS and designed project structure.
- Developed REST APIs for the vaccine section.
- Used Mockito with JUnit 4 to write white-box tests.

TECHNOLOGIES
Java 8 · Spring Boot · Spring JPA · Maven · Spring Security · MySQL · Angular 2+ · TypeScript · HTML5 · CSS3

## Education

**Bachelor of Computer Science** — Jul 2016 — 2020

University of Greenwich

Major: Information Technology
